

Voler Strategic Advisors to Support Bay Area Scholarship Fund

Investment is part of company's commitment to community

San Jose, Calif., (June 13, 2017) – Voler Strategic Advisors has announced that they will be sponsoring three scholarships for students seeking to attend college.

The investment will be made through the Bay Area Gardner Foundation, a Bay Area nonprofit organization committed to providing scholarships to students facing significant financial barriers in order to provide them the opportunity to actualize their dreams.

“There is no investment more important than the education of a student on the way to achieving her/his dreams,” said Perla Rodriguez, Chief Executive Officer, Voler Strategic Advisors. “When students succeed, entire communities succeed. Students can change the long-term economic trajectory of their family and their immediate community. That is an investment I will always want to make.”
